Iowans for Sensible Priorities Email

More than 6,500 Iowans have already pledged to attend their Caucus in January and support a candidate who favors sensible federal budget priorities. We need your help to keep the momentum going and get 7,000 pledges by June 30th!

The Iowa Caucuses are first for a reason! We are known for understanding the issues and choosing the candidates who represent our values best. Take the Caucus for Priorities Pledge today and send a message to the Presidential candidates: we will only support candidates who **SHOW US THE MONEY!**

The Pentagon wastes billions every year on obsolete and unnecessary weapons systems, while our schools crumble, our children go without health care coverage, and our nation's addiction to fossil fuels continues. We need a candidate who will stand up to the defense contractors and **MOVE OUR MONEY!**

In September, when we have secured a voting bloc of 8,000 pledgers, the presidential candidates **MUST** take us seriously. Then, we'll ask each candidate, both Democrats and Republicans, what their federal budget would look like. We'll find out what social programs their administration would fund and which ones they would cut. We'll also ask about all of the wasteful weapons systems we believe should be trimmed from the Pentagon budget. We'll share all of this information with you, but, by law, we can only share it with our pledgers. Will you take the Priorities Pledge to find out which candidates share your priorities?

Help make the candidates listen to us this caucus season by taking the pledge! Together, we can bring some common sense to the federal budget!

Sincerely,

Dave Stone
